

Pharmaceutical division of Medicina Health Care is a fast growing arm of the company with various products for Specialty Hospitals, Polyclinics, Pharmacies etc.

Our product range is quite diversified covering the therapeutic segments like Cardiovascular ,GIT and metabolism, NSAIDS, Anti obesity , Probiotics, , Anti bacterial, Anti histamines and lot of other quality generics.

We are constantly thriving for newer molecules and for this quest, we have a business development plan headed by the Division Manager of Pharmaceuticals.

Our regulatory affairs department ensures that all queries from the principals and potential partners are handled efficiently and professionally. Regulatory affairs liaises with the Health authorities in Egypt and with principals to ensure approvals, renewals of the manufacturing sites and products within a defined timeline.
